My entire life, I have been one of those girls who falls head first into love with every bad boy, no-good-for-me, asshole that's willing to give me the time of day. By twenty-eight, I couldn't even count the number of times I'd fallen in love and landed on my face. So many times, that I'd probably never be able to find all the pieces of my shattered heart again. I gave up trying and began dating the "right type" of guy, the "safe" type of guy, but it ended like a sad joke that left no one laughing. Especially not my sister Steph, who had been bugging me to try a relationship like hers.

A BDSM type of relationship.

The acronym alone scared me spitless. I didn't think I could ever be strong enough to give my submission to anyone, let alone the stranger that Steph's Dom wanted to set me up on a blind date with. Until they sprung a double date on me and I found that the stranger wasn't a stranger at all. Could Reed Daniels be the right Doctor/Daddy Dom to stitch my heart back together?
